However, on July 26, 2013, Daughtrey conveyed, via properly witnessed and executed Warranty Deed, a portion of the Property to PLAINTIFF. A true and correct copy of the Warranty Deed is attached as **EXHIBIT “A”**. Since then a State and National attack by Florida Leaders and CIA with Bush Family has taken place on Plaintiff and Americans to hide PRIMARY WATER to TAPS of Florida for 10yrs now with a barrage of attacks to subdue the Engineer of Record and Deed Holder while attacking Daughtrey land as they didnt know exactly where the resource was on the forested ranch. **We had to hide it on Civil engineering plans during these Timed Terrorism attacks, fueled by all Florida Sheriff and FBI under Title 18 Treason.....to protect our fellow Americans from these US Terrorist Politicians and Lawyers in Florida, such as Greenberg Traurig and Henderson Franklin and all Sarasota Lawyers (its a gang) tied to Rothschild World Bank and a gang of Retarded Judges who lie, cheat and steal to kill children with Cancer Rates at the tap by PLAYING STUPID ON EVIDENTIARY HEARING and NOT ALLOWING ANY EVIDENCE while they attack with Desantis and Yale fools for 10yrs.**
16. The US Congress never finished Impeachment issues that disappeared in Media spot light once a Black Harvard Terrorist President Barrack Hussain Obama and Trump replaces the last Terrorist President tied to Harvard and Yale and Defendants with Catholic Church filled with Pedophiles tied to Epstein list in Florida.
17. George W. Bush – ex President George W. Bush who was in Sarasota Classroom day of 9-11 is into Blue Gold. See Blue Gold Bush Family and has used the Carlton Family and

72 Partners members of Notre Dame, Lee Pallardy and C1 bank/Ozark Bank Thomas Howze to pay off Judges, Clerks and Commissioners from Tampa to South Florida and up into Washington, Georgia and abroad to claim these underground resources and cases are frivolous without any Court hearings or due process. They use Smith Mundt acts and MODIFICATION in 2012 to attack Americans with the CIA and Hollywood manufactured news with this Court and many Florida courts now starting to understand this CIA highly trained and illegal coup against The Engineers rights to attack his clients and lands with Sheriffs and Judges under investigation.

18. Bush family was one of the original Presidents who created the CIA and works with Greenberg Traurig to control DOJ and more to attack Americans and their Water Supply with the DOJ and fake new or combined fake and real new timed with these cases and our permitting. The Judges avoid all due process as they are too incompetent or lazy to allow witnesses and due process.

His job duties required him to run towards danger at risk of life and limb, and not to run away from danger for the sole purpose of sole-preservation. His arbitrary and conscience-shocking actions and inactions directly and predictably caused children to die, get injured, and get traumatized. Peterson is employed by the Broward County as a deputy police officer in the Marjory Stoneman Douglas High school, and at all times relevant herein was acting under the color of state law.

Access to ANCIENT SPRINGS 🧑‍🔬💧

It is my opinion that the water is traveling underground all the way from just below the north pole... maybe like say 13 to 15 degree south of the North Pole... water because of it negative and positive charges is attracted to itself... this is why clouds form... as it travels south it picks up speed because of the shape of our planet... at the equator we are spinning at approximately 1,000 mph... to make that trip would take probably in the area of a couple hundred thousand years... a lot of our minerals are frozen in our ice caps... a lack of toxins would no doubt be because when water freezes it becomes structured water... H_2O_2 which is why ice floats... it expands as it structures that is when it also pushes out all the toxins... Blue Gold waters destination is the equator... I believe it probably resurfaced at the equator from the KT Event and other Historical impacts... most of our weather travels from west to east except at the equator... where it goes the other way... Bringing us these ungodly storms ⚡ It's my opinion that this water with the minerals in it are partially responsible for the charge of this planet... it is no doubt a contributing factor to the forces that produce our weather patterns..... 🧑‍🔬💧 Ancient Springs 🌍

SUBJECT: Gilberti Blue Gold - Partnership Letter of Intent with Cargill, Bayer, Pfizer, Eli Lilly and Lockheed Martin/Boeing on New Food, Agricultural, Medicine, Water Supply, Development Control and National Defense in West Florida from secret underground unique resource at Cecil Daughtrey/Flint Ranches in Sarasota/Arcadia Florida

RE: Request to Meet to discuss Partnership/JV

Dear Consortium,

Please see attached Regional Infrastructure plans to bring Antioxidant Spring Water showing highest Calcium & Magnesium in a pure endless source located at 9438 Daughtrey Rd, Sarasota Florida 34266 at the end of Clark Road (SR 82).

I am a 30yr Florida Professional Civil/Mechanical Engineer with mineral rights, access and a 12yr story and timeline to get this opportunity to your attention. Local Government and more are in a huge Fraud Transfer with DOJ and earners who attempted to hide this opportunity from Americans and Florida.

See attached Workshop letter with my resume, phase 1 infrastructure plans, and unique medicinal readings. This resource is off the chart for endless flow and quality, hence the attack by Sarasota County and Tampa to steal it from two small Ranchers/Farmers who had no idea what was under the land 2000' below in a small area of their few thousand acres of lands.

My website shows the attacks, and what you need to see is this opportunity for National Defense, New Food, Medicine and Regional Infrastructure plans to bring Antioxidant Spring water and lower water bills, housing booms, etc.

The Military and most advanced Oil Drillers have been to the property multiple times and verified this as the No1 Resource on Earth. This is your opportunity. We have a need for a large consortium to buy essentially the entire 20miles of Sarasota Lower Myakka Lands East of I-75 to Desoto County up to Mosaic property who knows me very well.

We fired Greenberg Traurig Dave Weinstein in Tampa for conflicts as I pulled a Phosphate mine permit with FDEP in 2009 and suddenly they shopped us with Tampa locals tied to old groups

who are related to Hulk Hogan, Jason's Hauling, DeBartolo, Lee Pallardy, Thomas Howze and more.

With Manatee Port widening, shown on plans, we can produce Medicine, Foods, Housing and more as well as National Defense per Title 50USC Sec 3 to Revitalize Florida Peninsula CSX supply chains from Manatee-Tampa Ports to South Florida Port Everglades and Miami Ports down I-75 widening plans in works. See Gilberti v Council of National Defense MANDAMUS attached and digital plans at www.GilbertiBlueGold.com for information.

Due to timed events involving Sarasota and Tampa Judges, Commissioners, and many more on my civil rights and a Fraud Transfer with stolen tax base involving Ron Desantis, Rick Scott and Tampa to Naples leaders, the leverage is there to expedite all opportunities in months. It's all ready to go. We just need to meet and call in issues. A converted RV Griffin Reservoir to new Preco Power plant with underground River replacing Peace River is also available in the West Florida project.

We have another in New Jersey to serve New York if we can get the ball rolling in Florida. See Gilberti v United Nations.

Please contact me at your earliest convenience to begin diligence and a hopeful Letter of Intent with Cargill, Eli Lilly, Bayer, Pfizer, and Lockheed Martin/Boeing so I can show you much, much more I cannot disclose that ups the stakes in a Global perspective.

RE: Gilberti v 9/11 George Bush Sarasota Connection filed in
US District Court of Southern New York - Case No. 24-cv-
07180 Mandamus shows Organized Fraud by Leaders/Media to
hide PRIMARY WATER ACCESS from THE PEOPLE

Dear George W. Bush,

Enclosed herewith are Gilberti v Bush et al lawsuits and
Mandamus filings regarding 'Unique endless Primary Spring
Water' access in Sarasota to serve Tampa to Miami per our
FDEP/FDOT phase 1 permitting and future alignment plans, as
well as a Study from New Jersey at Watchung Mountain
(Washington Rock) to New York City.

We are asking you to expose both projects under attack by a
gang of Terrorist Lawyers, Judges, State Attorneys caught in
timed Terrorist events that ultimately pointed their efforts at you.

The explanation and timing are described in the filings. I
don't know if you have been setup by current leaders and
Dissemination but if you help open these Global unique
medicine and water supply infrastructure projects it would help
clear up a lot of ongoing crimes in Sarasota to Tampa thru
Judges you appointed or are shown associated with through
Carlton Family and more these past 12yrs.

The Nation needs your help as Trump, Obama, Given,
Harris are too scared to help or are part of the problem.

You can come to the property in Sarasota at 9438
Daughtrey Road, Sarasota, FL 34266, do a YouTube video with

our team and Farmer/Ranchers Cecil Daughtrey and Robert Flint. We have Full control, mineral rights and major infrastructure plans. We have knowledge and other information for Lockheed Martin/Boeing our consultant work for.

We need to expose this Sarasota, Tampa to Naples gang involving attacks by DeSantis, Rick Scott and more since the find and submissions to FDEP, ACOE, Peace River Manasota Water Authority and local Hospitals, Commissioners and Courts.

We met with Mayor Eric Adams office on above regarding aqueduct attacks during 9/11. Due to your knowledge of Oil drilling past Primary Water access, Smith Mundt Act Mod HR 5736, and being in Sarasota during attack near the No1 Blue Gold Resource (See Blue Gold Bush Family Water Wars) on Earth at Daughtrey Ranch, I am compelled to send you an opportunity to clear up any potential involvement of the past and any notions in the complaints

The past 12yrs of Obama, Trump, Biden, DeSantis, Rick Scott with Sarasota Judges, Sheriffs, Tampa Lee Pallardy, Thomas Howze, Kenny Harrison of 72 Partners and Greenberg Traurig with DOJ across Sarasota-Tampa to Broward Florida put us and THE PEOPLE in this horrific situation that can ultimately be fixed in days.

I am trying to help you here, so come to the Property immediately to clear this up and open both projects and much more!

Sincerely,

EXHIBIT "A".

Impeaching George W. Bush, President of the United States, of high crimes and misdemeanors.

IN THE HOUSE OF REPRESENTATIVES

June 10, 2008

Mr. Kucinich submitted the following resolution

June 11, 2008

By motion of the House, referred to the Committee on the Judiciary

RESOLUTION

Impeaching George W. Bush, President of the United States, of high crimes and misdemeanors.

Resolved, That President George W. Bush be impeached for high crimes and misdemeanors, and that the following articles of impeachment be exhibited to the United States Senate:

Articles of impeachment exhibited by the House of Representatives of the United States of America in the name of itself and of the people of the United States of America, in maintenance and support of its impeachment against President George W. Bush for high crimes and misdemeanors.

In his conduct while President of the United States, George W. Bush, in violation of his constitutional oath to faithfully execute the office of President of the United States and, to the best of his ability, preserve, protect, and defend the Constitution of the United States, and in violation of his constitutional duty to take care that the laws be faithfully executed, has committed the following abuses of power.

Article I—Creating a Secret Propaganda Campaign To Manufacture a False Case for War Against Iraq

In his conduct while President of the United States, George W. Bush, in violation of his constitutional oath to faithfully execute the office of President of the United States and, to the best of his ability, preserve, protect, and defend the Constitution of the United States, and in violation of his constitutional duty under article II, section 3 of the Constitution "to take care that the laws be faithfully executed", has both personally and acting through his agents and subordinates, together with the Vice President, illegally spent public dollars on a secret propaganda program to manufacture a false cause for war against Iraq.

The Department of Defense (DOD) has engaged in a years-long secret domestic propaganda campaign to promote the invasion and occupation of Iraq. This secret program was defended by the White House Press Secretary following its exposure. This program follows the pattern of crimes detailed in articles I, II, IV, and VIII. The mission of this program placed it within the field controlled by the White House Iraq Group (WHIG), a White House task-force formed in August 2002 to market an invasion of Iraq to the American people. The group included Karl Rove, I. Lewis Libby, Condoleezza Rice, Karen Hughes, Mary Matalin, Stephen Hadley, Nicholas E. Calio, and James R. Wilkinson.

The WHIG produced white papers detailing so-called intelligence of Iraq's nuclear threat that later proved to be false. This supposed intelligence included the claim that Iraq had sought uranium from Niger as well as the claim that the high strength aluminum tubes Iraq purchased from China were to be used for the sole purpose of building centrifuges to enrich uranium. Unlike the National Intelligence Estimate of 2002, the WHIG's white papers provided "gripping images and stories" and used "literary license" with intelligence. The WHIG's white papers were written at the same time and by the same people as speeches and talking points prepared for President Bush and some of his top officials.

The WHIG also organized a media blitz in which, between September 7-8, 2002, President Bush and his top advisers appeared on numerous interviews and all provided similarly gripping images about the possibility of nuclear attack by Iraq. The timing was no coincidence, as Andrew Card explained in an interview regarding waiting until after Labor Day to try to sell the American people on military action against

Iraq, "From a marketing point of view, you don't introduce new products in August."

September 7-8, 2002:

NBC's "Meet the Press": Vice President Cheney accused Saddam of moving aggressively to develop nuclear weapons over the past 14 months to add to his stockpile of chemical and biological arms.

CNN: Then-National Security Adviser Rice said, regarding the likelihood of Iraq obtaining a nuclear weapon, "We don't want the smoking gun to be a mushroom cloud."

CBS: President Bush declared that Saddam was "six months away from developing a weapon", and cited satellite photos of construction in Iraq where weapons inspectors once visited as evidence that Saddam was trying to develop nuclear arms.

The Pentagon military analyst propaganda program was revealed in an April 20, 2002, New York Times article. The program illegally involved "covert attempts to mold opinion through the undisclosed use of third parties". Secretary of Defense Donald Rumsfeld recruited 75 retired military officers and gave them talking points to deliver on Fox, CNN, ABC, NBC, CBS, and MSNBC, and according to the New York Times report, which has not been disputed by the Pentagon or the White House, "Participants were instructed not to quote their briefers directly or otherwise describe their contacts with the Pentagon."

According to the Pentagon's own internal documents, the military analysts were considered "message force multipliers" or "surrogates" who would deliver administration "themes and messages" to millions of Americans "in the form of their own opinions". In fact, they did deliver the themes and the messages but did not reveal that the Pentagon had provided them with their talking points. Robert S. Bevelacqua, a retired Green Beret and Fox News military analyst described this as follows: "It was them saying, 'We need to stick our hands up your back and move your mouth for you.'"

Congress has restricted annual appropriations bills since 1951 with this language: "No part of any appropriation contained in this or any other Act shall be used for publicity or propaganda purposes within the United States not heretofore authorized by the Congress."

A March 21, 2005, report by the Congressional Research Service states that "publicity or propaganda" is defined by the U.S.

Government Accountability Office (GAO) to mean either (1) self-aggrandizement by public officials, (2) purely partisan activity, or (3) "covert propaganda".

These concerns about "covert propaganda" were also the basis for the GAO's standard for determining when government-funded video news releases are illegal:

"The failure of an agency to identify itself as the source of a prepackaged news story misleads the viewing public by encouraging the viewing audience to believe that the broadcasting news organization developed the information. The prepackaged news stories are

purposefully designed to be indistinguishable from news segments broadcast to the public. When the television viewing public does not know that the stories they watched on television news programs about the government were in fact prepared by the government, the stories are, in this sense, no longer purely factual—the essential fact of attribution is missing."

The White House's own Office of Legal Council stated in a memorandum written in 2005 following the controversy over the Armstrong Williams scandal:

"Over the years, GAO has interpreted 'publicity or propaganda' restrictions to preclude use of appropriated funds for, among other things, so-called 'covert propaganda'. . . . Consistent with that view, the OLC determined in 1988 that a statutory prohibition on using appropriated funds for 'publicity or propaganda' precluded undisclosed agency funding of advocacy by third-party groups. We stated that 'covert attempts to mold opinion through the undisclosed use of third parties' would run afoul of restrictions on using appropriated funds for 'propaganda'."

Asked about the Pentagon's propaganda program at White House press briefing in April 2008, White House Press Secretary Dana Perino defended it, not by arguing that it was legal but by suggesting that it "should" be: "Look, I didn't know look, I think that you guys should take a step back and look at this look, DOD has made a decision, they've decided to stop this program. But I would say that one of the things that we try to do in the administration is get information out to a variety of people so that everybody else can call them and ask their opinion about something. And I don't think that that should be against the law. And I think that it's absolutely appropriate to provide information to people who are seeking it and are going to be providing their opinions on it. It doesn't necessarily mean that all of those military analysts ever agreed with the administration. I think you can go back and look and think that a lot of their analysis was pretty tough on the administration. That doesn't mean that we shouldn't talk to people."

In all of these actions and decisions, President George W. Bush has acted in a manner contrary to his trust as President and Commander in Chief, and subversive of constitutional government, to the prejudice of the cause of law and justice and to the manifest injury of the people of the United States. Wherefore, President George W. Bush, by such conduct, is guilty of an impeachable offense warranting removal from office.

**Article II—Falsely, Systematically, and With Criminal Intent
Conflating the Attacks of September 11, 2001 With Misrepresentation of
Iraq as an Imminent Security Threat as Part of a Fraudulent
Justification for a War of Aggression**

In his conduct while President of the United States, George W.

Bush, in violation of his constitutional oath to faithfully execute the office of President of the United States and, to the best of his ability, preserve, protect, and defend the Constitution of the United States, and in violation of his constitutional duty under article II, section 3 of the Constitution "to take care that the laws be faithfully executed", has both personally and acting through his agents and subordinates, together with the Vice President, executed a calculated and wide-ranging strategy to deceive the citizens and Congress of the United States into believing that there was and is a connection between Iraq and Saddam Hussein on the one hand, and the attacks of September 11, 2001, and al Qaeda, on the other hand, so as to falsely justify the use of the United States Armed Forces against the nation of Iraq in a manner that is damaging to the national security interests of the United States, as well as to fraudulently obtain and maintain congressional authorization and funding for the use of such military force against Iraq, thereby interfering with and obstructing Congress's lawful functions of overseeing foreign affairs and declaring war.

The means used to implement this deception were and continue to be, first, allowing, authorizing and sanctioning the manipulation of intelligence analysis by those under his direction and control, including the Vice President and the Vice President's agents, and second, personally making, or causing, authorizing and allowing to be made through highly-placed subordinates, including the President's Chief of Staff, the White House Press Secretary and other White House spokespersons, the Secretaries of State and Defense, the National Security Advisor, and their deputies and spokespersons, false and fraudulent representations to the citizens of the United States and Congress regarding an alleged connection between Saddam Hussein and Iraq, on the one hand, and the September 11th attacks and al Qaeda, on the other hand, that were half-true, literally true but misleading, and/or made without a reasonable basis and with reckless indifference to their truth, as well as omitting to state facts necessary to present an accurate picture of the truth as follows:

(1) On or about September 12, 2001, former terrorism advisor Richard Clarke personally informed the President that neither Saddam Hussein nor Iraq was responsible for the September 11th attacks. On September 18, Clarke submitted to the President's National Security Adviser Condoleezza Rice a memo he had written in response to George W. Bush's specific request that stated: (1) the case for linking Hussein to the September 11th attacks was weak; (2) only anecdotal evidence linked Hussein to al Qaeda; (3) Osama Bin Laden resented the secularism of Saddam Hussein; and (4) there was no confirmed reporting of Saddam Hussein cooperating with Bin Laden on unconventional weapons.

(2) Ten days after the September 11th attacks the President received a President's Daily Briefing which indicated that the

U.S. intelligence community had no evidence linking Saddam Hussein to the September 11th attacks and that there was "scant credible evidence that Iraq had any significant collaborative ties with Al Qaeda".

(3) In Defense Intelligence Terrorism Summary No. 044-02, issued in February 2002, the United States Defense Intelligence Agency cast significant doubt on the possibility of a Saddam Hussein-al Qaeda conspiracy: "Saddam's regime is intensely secular and is wary of Islamic revolutionary movements. Moreover, Baghdad is unlikely to provide assistance to a group it cannot control".

(4) The October 2002 National Intelligence Estimate gave a "Low Confidence" rating to the notion of whether "in desperation Saddam would share chemical or biological weapons with Al Qaeda". The CIA never informed the President that there was an operational relationship between al Qaeda and Saddam Hussein; on the contrary, its most "aggressive" analysis contained in "Iraq and al-Qa'ida: Interpreting a Murky Relationship" dated June 21, 2002, was that Iraq had had "sporadic, wary contacts with al-Qa'ida since the mid-1990s rather than a relationship with al-Qa'ida that has developed over time".

(5) Notwithstanding his knowledge that neither Saddam Hussein nor Iraq was in any way connected to the September 11th attacks, the President allowed and authorized those acting under his direction and control, including Vice President Richard B. Cheney and Lewis Libby, who reported directly to both the President and the Vice President, and Secretary of Defense Donald Rumsfeld, among others, to pressure intelligence analysts to alter their assessments and to create special units outside of, and unknown to, the intelligence community in order to secretly obtain unreliable information, to manufacture intelligence or reinterpret raw data in ways that would further the Bush administration's goal of fraudulently establishing a relationship not only between Iraq and al Qaeda, but between Iraq and the attacks of September 11th.

(6) Further, despite his full awareness that Iraq and Saddam Hussein had no relationship to the September 11th attacks, the President, and those acting under his direction and control have, since at least 2002 and continuing to the present, repeatedly issued public statements deliberately worded to mislead, words calculated in their implication to bring unrelated actors and circumstances into an artificially contrived reality thereby facilitating the systematic deception of Congress and the American people. Thus the public and some members of Congress, came to believe, falsely, that there was a connection between Iraq and the attacks of 9/11. This was accomplished through well-publicized statements by the Bush

Administration which contrived to continually tie Iraq and 9/11 in the same statements of grave concern without making an explicit charge:

(A) "[If] Iraq regimes [sic] continues to defy us, and the world, we will move deliberately, yet decisively, to hold Iraq to account. . . . It's a new world we're in. We used to think two oceans could separate us from an enemy. On that tragic day, September the 11th, 2001, we found out that's not the case. We found out this great land of liberty and of freedom and of justice is vulnerable. And therefore we must do everything we can—everything we can—to secure the homeland, to make us safe." Speech of President Bush in Iowa on September 16, 2002.

(B) "With every step the Iraqi regime takes toward gaining and deploying the most terrible weapons, our own options to confront that regime will narrow. And if an emboldened regime were to supply these weapons to terrorist allies, then the attacks of September 11th would be a prelude to far greater horrors." March 6, 2003, Statement of President Bush in National Press Conference.

(C) "The battle of Iraq is one victory in a war on terror that began on September the 11, 2001—and still goes on. That terrible morning, 19 evil men—the shock troops of a hateful ideology—gave America and the civilized world a glimpse of their ambitions. They imagined, in the words of one terrorist, that September the 11th would be the 'beginning of the end of America'. By seeking to turn our cities into killing fields, terrorists and their allies believed that they could destroy this nation's resolve, and force our retreat from the world. They have failed." May 1, 2003, Speech of President Bush on U.S.S. Abraham Lincoln.

(D) "Now we're in a new and unprecedented war against violent Islamic extremists. This is an ideological conflict we face against murderers and killers who try to impose their will. These are the people that attacked us on September the 11th and killed nearly 3,000 people. The stakes are high, and once again, we have had to change our strategic thinking. The major battleground in this war is Iraq." June 28, 2007, Speech of President Bush at the Naval War College in Newport, Rhode Island.

“They know that the Northern covered in ice, a la *The Day After Tomorrow* or it will be too arid and erratic, that the only tolerable living conditions will exist south of the border, writes the Vidiot. “The land **Bush** is rumored to have purchased is smack dab over an aquifer as well as dead close to a good source of natural gas. On top of that, there’s a huge chunk of land right next door that’s owned by the **Bush** family good buddy Sun Myong Moon of the infamous Moonies ... It’s perfect. They will have water, they will have gas, they have a military contingent there to fight off the locals, they could do whatever they wanted AND not get extradited to The Hague.”

Paranoia aside, there was another thread that tended to link most of the blog coverage — that is, the “coincidence” that Jenna **Bush** “just happened” recently “to visit” Paraguay.

“For me, the news that Jenna **Bush** had become a UNICEF ambassador was already a disconnect of baroque proportions,” writes skdadl at Peace, order and good government, eh? “And Jenna as any kind of secret political emissary seems to me to lift this story right off into the rococo. But then, as Scott Fitzgerald once said, the rich aren’t like us, so what would I know?”

Cares Now, Petitioner, Joseph D. Gilberti, P.E., pursuant to FRCP,
hereby files a Petition for Writ of Mandamus for Respondents to test
two unique Endless 'Pining Water' resources in New Jersey to serve New York,
and Sarasota Florida. Incorporate Palm Beach complaint via Gilberti v
George Bush et al to this Writ (Case: 50-2023-CA-016763-MB) in Cir 15
Palm Beach County, Florida, regarding 9-11 Bush Sarasota Connection
where Tampa/Sarasota Judges, Judge Donna Marie Pader, are attacking
both Florida/NY Pining Water to kill Americans, maintain Wars, hiding Sustainable
Global Water Supply knowledge; (1) pointing at Wen Buchanan/George Bush/Obama
that he is a terrorist.

I. Facts

- (1) Petitioner is a Licensed Professional Civil/Infrastructure Engineer in Florida on Global/USA and FDOT/Parks/Harbors/Resources/Master projects for Land Development for over 30yrs. (PE #56079). Working with Dams & More/US & 1890's, Headquarters, Boca, FL.
- (2) Petitioner has been subdued by this 9-11 Sarasota/Tampa "organized Terrorist gang" of Lawyers/Judges, Democrats, Obama, Trump, Harris, Biden coup to suppress "Global Pumping Water" access for 12yrs, ongoing.
- (3) George Bush is tied to 9-11 per Articles of Impeachment by US Congress shown on Gilbert v George Bush, et al in Cit 15, Sarah Bush Case 50-2023-CA-016963-MB. This simple complaint shows Bush Family tied to 9-11, Blue Gold Water Wars, CIA South Mundt Jet with Alumni from Yale/Harvard and Notre Dame still attacking with Judge Donna Marie Padar (Fraud) Historian see Sarasota Case 2021 CE 07559 NC, appointed by Bush Family, Padar is known as an angry Woman who hates America, Men, Women and Children. Attacking all Humanity in open Court. See JAC 24-777. See Gilbert v FBI, et al, Gilbert v Trump, et al, Gilbert v Elon Musk, Mark Cuban, et al demonstrating an "Organized Lawyer" coup of MISfits tied to Title 22 USC (§1461-14) and HA 5736 South Mundt Jet Mod of 2012, initiated the week Petitioner exposed "Endless Pumping Drinking Water (artificial)" to Nations/USA Taps, desert areas No need for Rain for Water Supply (ENTER ACCESS DEEP BELOW)

- (4) Respondents have FAILED the USA People with Media to hide Global Pure Knowledge. (2) This case is long overdue. Takes Men!

II. Statement of Jurisdictional Basis

- (5) This court has jurisdiction pursuant to Article III, Section 2, of the United States Constitution which empowers this court to act, "all cases in law and equity, arising under [the] Constitution." Issuance of writ of Mandamus in aid of such jurisdiction is authorized by 28 U.S.C. 1651.

III. Federal and State Constitutional Provisions

No state shall make or enforce any law which shall abridge the privileges or immunities of Citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.
U.S. Const. Amend. XIV, § 1.

IV. Legal Standard

- (7) A writ of Mandamus is an extraordinary remedy, its issuance is appropriate when necessary to vindicate the rights of citizens when a government agency or official has refused to perform a ministerial duty that the petitioner has established a clear legal right to see performed. "Respondents have purposely ignored/Attacked the resources and Ancient (NOT EVERYONE). These 'Primary Water' access points demonstrate deep underground 'Global Antioxidant Spring Water Oceans' hidden by 9-11 Secret & Connection/Judges/Lawyers tied to Venne Buchanan/Bush to create (3) Wars, Food, Energy, migration, crisis.

II. Take Judicial Notice

- (8) Petitioner request this Court and Respondents to take Judicial Notice of the following State and Federal cases, House HR.5736 Resolutions and US Constitutional Titles related to the "ongoing systematic organized attack" to suppress "any White Access" were a syndicated group in the New York, State of Texas, Florida, Michigan, New Mexico and California, Kansas, Delaware, Arkansas since April 3, 2013 or earlier. VII. Statement of Case/Request for Relief

- (9) The Gilbreth v. George Bush case in CA 15 Palm Beach County CASE 50-2023-CA-016963-MB was never secured as the 'organized attack' by Sarasota DOT compromised it, while stealing lands in a 'Fraud Trustee'. See Gilbreth v. T2 Partners, LLC case 2019 CA 04532 NC, (DIN 197) describing the illegal Land Grab by CA12 Judge Walker, Judge Dennis Padell and 16 more subpoenaed on Case 2021 CF 07559 NC. The Gilbreth v. George Bush, et al case has plans for New York/New Jersey as well at Florida Rossmore located at Cecil Doughty Road at 9438 Doughty Rd Sarasota, FL 34266. The verified No. 1 'Primary Water' access on Earth, verified by consultants for Lockheed Martin/Boring in 2013, SEE EXHIBIT A+B in SARASOTA!
- (10) The Twin Towers were hit by two airplanes, but 3 buildings went down (Bldg 7) over very old failing/crumbling squatters system from Castelli Apartments. Meeting held at Governors House at New York City Hall with Mayor Eric Adams/Wag Lakewood on 2-2-23; with Petitioner, Joe Gilbreth, P.E., Marine Anthony Menet (NJ) and Queens Sal Berretta, personal friends with Mayor Adams on a 900 MGD delivery of 'Primary Water' and 9-11 Sarasota's Bush (see news) Connection to Global/Florida Water Wars. (See EXHIBIT A)
- (11) George H.W. Bush is tied to CIA, Smith Mundt Act of 1948, HR 5736 Smith Mundt Act M.I. 2012, with Title 22 USC (§ 1461-14) going against Title 18 USC § 241-242 § 301 and Title 15 USC (§§ 1151-1152). George W. Bush/Family purchased 100,000 acres next to Grand River, Paraguay. 'Primary Water' (5)

VII. Request for Relief (cont.)

(12) The US Congress file Articles of Impeachment regarding 9-11 George Bush dissemination, land, oil and water rights stolen from an entire Nation because two Loser's flew airplanes. WE THE PEOPLE are the LAND OF THE FREE, not a land who uses TV, Internet to harm entire cities of Children for two demolished buildings in NY, and Bldg 7? Title reuse - Dissemination!
"Take Notice"

(13) If the Aqueducts would have collapsed that summer, Sept. 11, 2001 (Aqueduct maintenance only allowed in Frozen/Winter), over 8 million people could have perished in 5 days. While George Bush, with today's Sarasota/Florida Judges, Gramm Leach Traynor continue to attempt to secure wells at Doughty/Gilbreth/Gilbert property. They have failed and are still hiding said issues! See Gilbreth v Secret Service, et al, Gilbreth vs Trump, et al, Gilbreth v. Harris, et al in DC, while Judge Parker, Walker, Sarasota still attack USA/Gilbreth.

RELIEF IS EASY

(14) Petitioner request BOTH New Jersey and Florida 'Primary Water Access' be verified by Respondents and Georgel Job/Mardin ^{Takes 1-hr!} Bush to CLEAR UP THE 9-11 CONNECTION and bless (VERIFY!) both sides with the Catholic Church/Pope/Arch Diocese of NY and Miami who have the files. Redeem America and Allow US Military/National Guard/ACOE install backbone Infra-structure, open 100's more with USGS, Gilbreth's team of Engineer/Consultants ready to move Fast. Open more in Middle East, Mexico to END wars, HUNGER, MIGRATION. Help Southern California, Ind. access damn now hidden by (6) Bush, NND, ACOE, oil owners.

VII Request for Relief (cont.)

- (15) Petitioner Request Respondents to investigate Sarasota DOJ and Tampa DOJ. See Gilbert v. Ashly M.D., et al in Tallahassee, Leon County and 2nd Judicial Circuit of Florida.
- (16) Petitioner request IMMEDIATE CONSTRUCTION OF NEW (NY to NYC) 22 mile Pipeline design/installation per Env'Tech Design Group, Inc. Preliminary Alignment Study shown on Gilbert v. Bush, et al Cir 15 Case 50-2023-CA-016963-MG. See New York Southern District, Gilbert v. United Nations, et al showing access from buried Volcano (Washington Monument) at Washington Rock. SEE EXHIBIT A
- (17) Petitioner Request Department of Justice arrest all Judges/Cops/Lawyers attacking Douglas Lewis, Gilbert's rights since 2012 in Sarasota, Tampa, Lee and even Broward County. See State v. Cuy Gilbert AR15 setup by Scott Israel hidden w/PTI and Judge Fein. (Portland Judge/puna)
- (18) Petitioner request Respondents "VERIFY MORE PRIMARY WATER ACCESS" with all Universities, ACOE, USGS, Dept of Interior/State per Title 15 USC; Arrest all Media across USA for Treason!

VII. Request for Relief (cont)

Petitioner has empirical data at Sarasota showing "Medicinal" water unique to human health, hidden and attacked for 12yrs by Obama, Trump, Harris, Clinton, Bush and Florida Leaders. Respondents must verify source, as it takes 1-hour!; At 9438 Daughtry Road, Sarasota, FL 34266 at well No2 located 50' west of section line at Cecil Daughtry 160ac Homestead lands north of Clark Road (SR 82).

Petitioner has shown, as well as Bush cases, ownership of Water Resources, key to foreign nations, an "ongoing systematic Attack to Disseminate the Scientific, Technology and Engineering data" the Petitioner has in his possession; for access and infusion to the Public 4-6 County Water Supply for a Much Higher LEVEL OF SERVICE. Again verify resources to show No 1 Aquifer on Earth, hence MOTIVES to attack. Disclose Petitioner data to All Media, Universities immediately per Title 15 US (41151-1157). Implement Plans submitted to FDOT Dist 1, 4, 6 and FDEP RD. 9yrs since 2015, 2020 and at SWARD in 2012.

CONNECT DOTS

Petitioner shows Bush in Sarasota (of all Places) worshipping this unique Resource, while attempting to Destroy New York Aqueducts, take IRAQ and Afghanistan Oil, water, Banks to US Treasury, using CIA South Mundt Act of 1948 and 2012 plot to attack US. His father was ahead of CIA, 30yrs, family into oil and 'Pricing Water' ownership thru force. Respondents must verify source, question Bush, Trump, Harris, Congress/Senate in Florida, NY, NJ, Cal. Hawaii, Texas on why this is hidden in US for 12yrs; with Sarasota Terrorist Government, Desantis, Judges, and Dick Scott/Obama Harvard & (10) Yale/Notre Dame Alumni? Cops, Media!

VII. No other Means to Attain Relief -

(20) Petitioner has no other means to enforce his rights. Mandamus jurisdiction of Federal District Courts extends on to officers, employees, or agencies of the United States, See 28 U.S.C. § 1361. There is no method of enforcement by Petition to State/Federal Legislature; and on local leaders, hiding the resources of 'Primary Worker' with ALL MEDIA, claiming Worker wars, cost of immigration, these projects/Resources locations and large civil engineering infrastructure permit plans solve by Land Tech Design Group, Inc. The illegal corruption by Judges, Mayor Adams from New York, Florida Sheriffs/Judges attacking Petitioner since 2012, tied to Blue Gold Bush Family, South Miami HA 5736 with CIA/NDAA, Trump, Harris shows the 'Organized Fraud' attack with Yale/Harvard/Notre Dame alumni in Des Moines and members of the White House and on Petitioner's land in Sarasota with JR Partners, LLC, Lee Calland (Terrorist) of Tampa, attacking Petitioner/USA.

VIII. Importance Beyond this Case

(21) Equal Rights challenges under A States re US Constitution to petition or act to verify 'deep underground agitators' to help open Global Knowledge. The lately renewed thereby potentially encouraging audacious indifference by State/Federal agencies to enforce their organic laws/policies. Writ of Mandamus being supervisory in nature are appropriate to cure such issues. See United States v. Beitzel, 994 F.2d 1002, 1014 (3d Cir 1993). There is nothing that would render it inappropriate to issue the writ. See in re Volkswagen of America, Inc, 545 F.3d 304 (5th Cir 2008).

X. Conclusion (Verify Resources - "Largest Professional P.E." "PROVE ENGINEER WORKS!")

(22) Petitioner has found two Global, very different 'Primary Water' access points in New Jersey (Somerset County) to reutilize New York City / New Jersey; and another in Sarasota County. See Exhibits A+B. The first is an historic buried volcano at Washington Rock only 25 miles away from Manhattan, approximately 500' above to reduce all water bills and provide 'Independent Spring Water' (ENDLESS) to open Northern New York State, stop Aqueduct Flooding in upstream cities. Move Natural Waterway courses back to it's original state saving OVER \$100,000,000/day to Tax payers. The second is most unique in Sarasota, Florida at Cecil Dougherty Ranch from Yucatan Meteor Impact via Tilted Platform. See Gilberti KT Hypothesis.

(23) There are many Congressional motions on Trump/Trump documents on George Bush regarding False Fly per 9-11 work & Sarasota connection. Mandamus is necessary, Bush needs to help Petitioner! +USA

(24) Wherefore a writ of Mandamus must issue compelling the respondents to verify both resources, ask George/Jeb/Marvin Bush to come to Sarasota Dougherty Ranch too, to reduce the issues and call out Trump, Harris and Media. Arrest Sarasota DOJ immediately, w/ Respondents help.

Certificate of Service

On September 13, 2024, Petitioner mailed the foregoing by US Mail to US District Court of New York, Clerk of Court at 500 Pearl Street New York, NY 10007.

Subject: Gilberti Blue Gold - Antioxidant Spring Water (900MGD) to New York City to save \$100mil/day via failing Aqueducts 1,2, and 3

RE: Gilberti v 9/11 George Bush Sarasota Connection filed in US District Court of Southern New York - Case No. 24-cv-07180 Mandamus shows Organized Fraud by Leaders/Media to hide PRIMARY WATER ACCESS from THE PEOPLE

Dear New York Fire Fighters/Departments and NYPD, NY Council/Port Authority/Lawyers,

My name is Joe Gilberti PE, my father was born in Brooklyn, and I am a native South Floridian with great news for both States. We met at City Hall with Mayor Adams/NYDEP Staff on 2-2-23 to provide unique Antioxidant Spring Water (900MGD) to Revitalize New York City and open Northern New York real estate with new RESOURCE from Watchung Mountain (buried Volcano) in New Jersey only 25miles away as shown on attached Study. We also have another unique Antioxidant Spring water source in Sarasota.

We have been under attack by Leaders and bad Cops, Judges and Corporate goons to suppress these projects and Global Medicinal endless drinking Water supply resources that have ZERO CONTAMINATES and greatly reduce Water, Food and Health cost to America, as their hidden by EPA, NASA, Presidents, Media, Hollywood, FBI and Military/Big Pharma Complex with their bottling friends.

See attached lawsuits to bring everyone to the Table on what we see in a potential connection to 9-11 to crush the Aqueducts with a gang of Yale/Harvard and Notre Dame Alumni still attacking in other fantastic events tied to subduing me since 2013 with Obama and Tampa/Sarasota Judges and Leaders to hide primary water access. See Website and platforms.

Both sites can be verified in hours. Our Oil consultants like Jim Murray have over 50yrs of experience in Newark and across USA via Amps Aquifer Maintenance in Palm Beach who also verified sources. We have access to test both.

We need Media exposure. I am offering \$1,000,000 dollars/day in perpetuity for NYFD/NYPD to help. Please see attached and contact me at your earliest convenience as this Global knowledge can end World Hunger and National Debts. See Gilberti v Federal Reserve hidden by US SUPREME COURT and Media.

PRELIMINARY ALIGNMENT AND FEASIBILITY REPORT

PROJECT OVERVIEW

The Menza residence is located at 505 Warren Road, New Jersey in the upper limits of Washington Rock or Washtung Mountain (old Blue Hills) toward the eastern end of New Jersey only 25 miles west of New York City and approximately 2000 feet above where an old Lava spill from deep in the Earth left a massive underground river access point below our clients land. The old, deep well with pure and endless drinking water was reserved and is the only lot in the area that was not required to hook up to the local water supply infrastructures during assessments due to the high quality of the Well and this unique access point. The property is located in hills of Somerset County with many potential routes for a large 9ft diameter Blue Gold Transmission down existing railroad right-of way (R/W), Interstate I-78 and 22 R/W to flow downhill into the much needed new source to all of New York City.

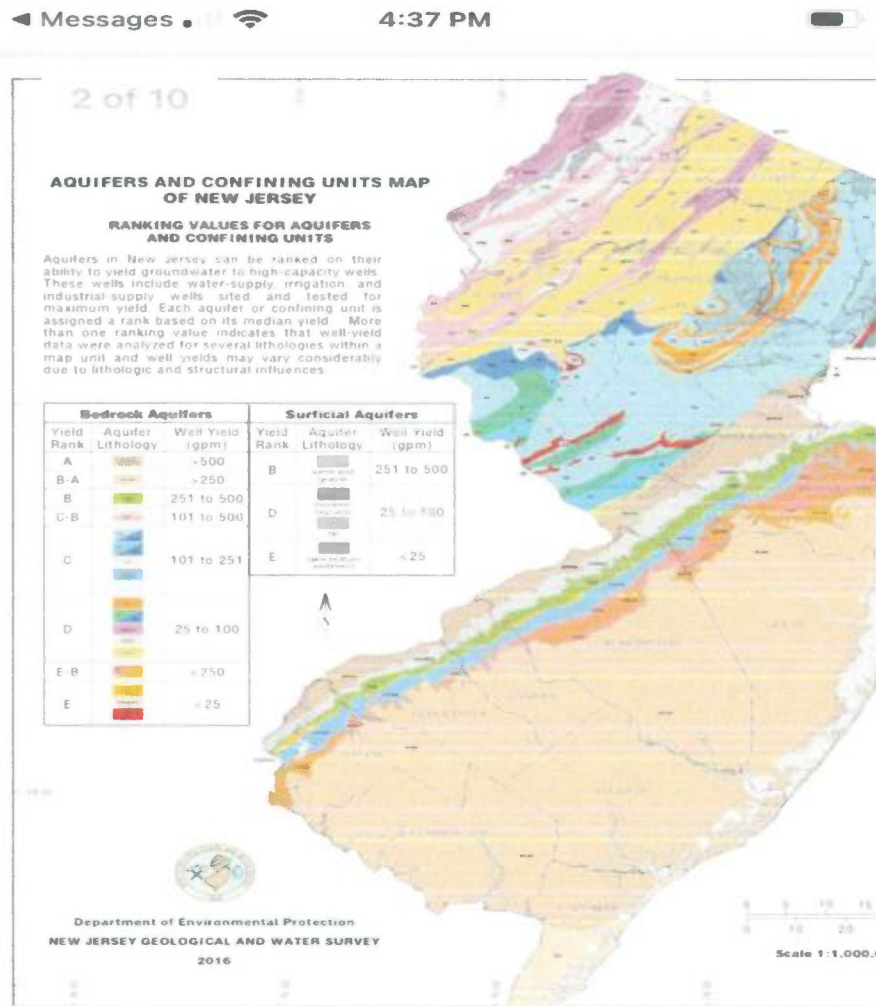

The location of the rural lot of approximately 1.5 acres with access to a deep basalt layer of the only historical area in New Jersey with Volcanic Trappa rock providing a alkaline type source, which is also location very close to large populations such as eastern New Jersey and New York City.

LandTech Design Group, Inc. is has another large project in Florida showing new transmissions down CSX Railroads and Interstate I-75 from Sarasota Florida to Miami solving the Florida North South conflict for over 10yrs where water quality and shortages from the same type of old style designs using reservoirs and rain dependency. Our new site resourcing and engineering concepts solve major water supply problems and lower the utility, water bills, taxes and risk to States and is being implemented in larger regions and now in your area, to help the American People move away from the old ways of water supply risk factors and issues that we request to discuss below in workshops with Staff and Agencies from New York City, New Jersey and Delaware systematically to expedite.

- (1) Alignments alternative down local roadways, Highways, existing Railroad R/w and Power easements.
- (2) Project Prospectus for Job Creation from Spring Water to the Tap of Homes in eastern New Jersey and New York City

- (3) Overall 30 mile Transmission Alignments from Washington Rock or Washtung Mountain (Old Blue Hills) to New York City.
- (4) Water Readings and Historical maps of secret hidden resource and through LandTech Design Group, Inc., new Hypothesis for Water Origin Theory showing endless Water below hidden by EPA Ice Comet theory
- (5) Demands and Flows needed along alignment (preliminary)
- (6) Appendix

 - Florida's 300mile Blue Gold Pipeline from KT Event showing similar secret resources that can solve the whole nations water supply with new science and access points.

WORKSHOP REQUEST WITH NEW YORK CITY MAYOR AND STAFF

Although this report is submitted preliminary, we have much more in our file, but wish to discuss the Water Supply interconnection models, future Capital improvement funds, matching funds and of course the Public Need which this new hidden resource may be expedited for funding as an Alternative Drinking Water Resource in case the ENTIRE AQUA-DUCT collapses into New York City from the 250yr old system, that has over 80yr old concrete aqua-ducts failing, that may create a massive Pandemic in New York City of NO WATER SUPPLY within days of the Collapse.

This system could stabilize the Risk within 2yrs construction, with the ability to allow the old system to be shut down in phases so in the end there are two sources from two different States serving New York city. The existing old system under duress from Delaware and the new proposed System via St Anthony's Blue Gold Pipeline. The failures and leaks within the Delaware system has caused home flooding which is a function also of the old system.

Diagram 1

Water Supply ready to collapse at Aqua-ducts affecting over 20million People in New York and Delaware instantly (80 to 400yr old infrastructure needs replacement)

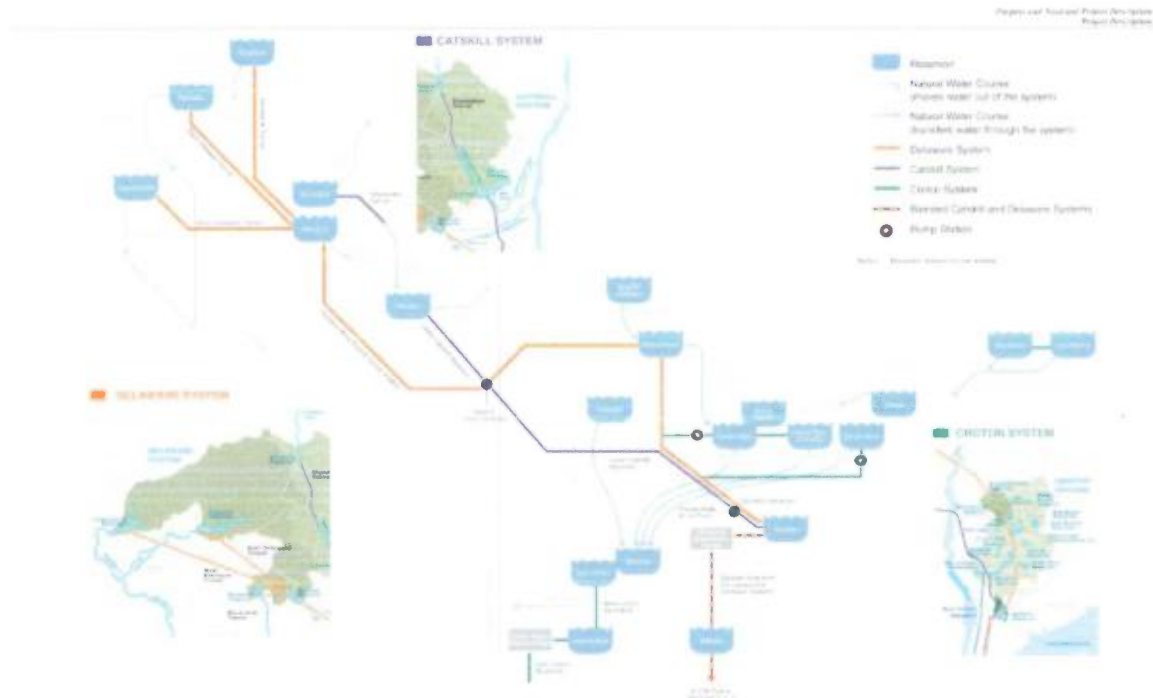

Diagram 2

Water Supply DEPENDS ON RAIN and subject to droughts and ready to collapse at Aqua-ducts affecting over 20million People in New York and Delaware instantly (80 to 400yr old infrastructure needs replacement)

CONCLUSION

Our new deep underground resource and proposed Blue Gold (primary Water Cycle) alignment not only provides better quality but a closer and more sustainable water source while the existing sources from Delaware systems will continue to increase in cost through renovations in perpetuity due to the age of concrete and other factors of use and break down. No matter how long you try the existing system while eventually fail and stop water to New York as warned to the Public by the Engineers in the region with an emphasis in multiple seminars, meetings, books and reports since 2013 and getting worse. Drinking Water supply effects Local, State, Federal and Global Sustainability in every way, shape or form.

For the past 400years New York is served from surface systems and Aqua-ducts that have been renovated to concrete aqua-ducts in the 1940's which have begun again to fail since 1980's or for the past 40yrs, but with a huge risk to a much larger population. These constructed aqua-ducts up State from New York in Delaware have now become a risky business in that Water Supply can be completely shut off if a collapse of the very frail reinforced concrete aqua-ducts shown in various reports in our Appendix by the National and State Authorities.

The existing water supply system in New York has even affected the population in Delaware with flooding. Reports show from the 1990's over 35million gallons per day are leaking, but fail to show whats leaking in and contaminating the water supply. Please contact our office at your earliest convenience so we can coordinate a Zoom Meeting and discuss three workshops completed with your staff in New York City on our proposal to help three States in Water Supply issues.

Petition for Writ of Mandamus

Comes Now, Petitioner, Joseph D. Gilbert, P.E., a Florida Licensed
Professional Engineer, pursuant to FCRA, hereby files a Petition
for Writ of Mandamus for all Respondents to rectify two secret Resources of
"Spring Water from Earths Core" which provides Endless, contaminant
Free, PFAS Free, Spring Water Pure Deep in Earth; with no Rain
Dependencies. Two locations have been submitted to Respondents
over past 2-10 yrs. Washington Rock, New Jersey (Washington Mountain)
A buried volcano to serve New Jersey to New York, replacing OLD

Aqueducts under New York City. Saving Risks, providing much healthier water supply; saving cost to maintain Aqueducts of approximately \$100,000,000/Day; installing Reserchule in northern New York to open at the Catkill Mountains and upstream at the Top of source (at Top of Unhatched).

Petitioner also request Respondents to inspect our Statewide Florida project from Tampa to Miami, with 'Primary Spring Water from Earths Core' from an Historical Weather Meter Impact (KTEant) at 9438 Doughty Road, Sarasota, FL 34236. (Tilted Platform)

Both projects have been emailed to Respondents and hand delivered to Mayor Eric Adams at City Hall, Governors Room on February 3, 2024, to Neg Lethal, in person.

Both Projects can be seen on Gilbert v. George Bush et al Palm Beach. CIRCUIT 15 CASE 2024-CA-016963-113. Reasons for Writ of Mandamus are as follows:

Factual Background

(1) Petitioner is a Licensed Civil/Mechanical Land Development Infrastructure Engineer with over 30yrs experience. Graduated from University of Florida 1993, Fla PE#56079.

(2) Both project resources have Global Oil Drillers with over 35yrs in Newark, and extensive drilling experience, Aquifer experience in New Jersey and New York. Jim Murray of Arps Aquifer Maintenance, Palm Beach, FL. Has investigated both Projects.

Factual Background (cont.)

- (3) A Mandamus on Respondents to investigate both Resources takes only a few days. This Global Knowledge from both Resources in New Jersey (Somerset County) and Sarasota Florida Allow other States and Water poor/drought/desert Nations, like the Middle East, India and Southern California, Mexico, find Endless Spring Water without Rain depending to stop Wars, Oppression, Migration, and Hunger.
- (4) These Resources demonstrate EPA Water Origin Theory, the 'Ice Core Theory' to be replaced by 'Oceans beneath Earth Theory' to solve 'Climate Change' with the CORRECT Thermodynamic Model. Everything changes instantly and Regulations/Taxes go down. Production, Sustainability goes up. World Peace begins and World Hunger Ends.
- (5) Gilberti v. Council of National Defence, NRDC, ACOE, Mandamus is docket at Tampa US Middle District of Florida, shows details and State cases (related issues) where Gov. Desantis and F.B.I. have, with over 150 Politicians/Judges have Attack Petitioners Civil Rights, land, clients, project to Suppress this Global Knowledge to maintain Military Complex/Big Thermonuclear Complex profits from Middle East Wars/Economic at the Top. Also See: Gilberti v. Rubio, Homeland Security, et al.
- (6) Nobody is moving these access points of Endless, High Flow of 'Purifying Spring Water' generated from Earth's Core/Mantle.
- (3)

Statement of Jurisdictional Basis

(7) This Court has jurisdiction pursuant to Article III, section 2, of the United States Constitution which empowers this Court to act "all cases, in law and equity, arising under [the] Constitution." Issuance of writ of mandamus in aid of such jurisdiction is authorized by 28 U.S. Code § 1651.

Federal and State Constitutional Provisions

(8) All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and the state wherein they reside. No state shall make or enforce any law (WATER LAWS!) which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

U.S. Const. Amend. XIV, § 1

Legal Standard

(9) A writ of mandamus is an extraordinary remedy, its issuance is appropriate when necessary to vindicate the rights of citizens when a government agency or official has refused to perform a ministerial duty that the petitioner has established a clear legal right to see performed. "Respondents have purposely ignored the benefits of this Global and local deep underground Endless Spring water supply to create a water, food, energy crisis."

Water Supply, Healthcare, Economic Sustainability, and
National Defense upgrade for New York, New Jersey
and Florida Peninsula per Title 50 USC § 3; Title 42 USC

(10) Petitioner has submitted Alignment Plans with 'Primary Water' access to Respondents since November 2022 and met at City Hall, New York City with Mayor Eric Adams, staff member Neg Lakew, with Marine Anthony Menza and Sal Barretta for a 900MGD delivery from Washington Mountains at Washington Rock. See Exhibits 4 and 13 for NJ to NY Alignment from a buried Volcano; and the Florida Project from a Tilted Platform in Sarasota from the KT Event. See Gilberti KT Hypothesis.

(11) Both Projects allow a Massive Infrastructure, Railroad upgrades and Revenue Bond take-downs due to the "High Level of Service" (LOS) and hidden ATTACKS on Petitioner Banks and Data with Respondents tied to the land and implemented Engineering Permits/Studies/Exposures.

(12) All Northern New York Watershed can be replaced by this variety system, increases GDP; lower Power/Water Bills; new upgraded National Defense. See Title 50 USC § 3 - Duties of Council

tied to both Projects, via NJ Transit and I-78 new Tracks with New York Tunnels/Pat Anthony upgrades from saving tax payers \$100,000,000/Day wasted on old Aqua-Ducts 1, 2, & 3 subject to collapse since 1991. Stops upstream City Flooding in Northern NY.

(13) Petitioner filed Gilberti v. George Bush, et al in Cir 15 Palm Beach, FL to allow this Court to demand official study headed to Respondents with Mayor Eric Adams office. See Case in Cir 15: 50-2021-CA-06963-MB. Also see Gilberti v. Council of National Defense, (5) in Tampa Middle Dist.

(14) Upgrading Water Supply to antioxidant Spring Lake while enhancing National Defense is the reason for the Petition for Mandamus. It takes Extreme Knowledge and Skill, Bravery to produce these projects, under DOJ attack, with tired Terrorists. See Gilbert v. Pentagon and Gilbert v. Federal Reserve et al, stonewalled by incompetent Judges/Leaders/Cops.

See Title 18 USC § 241-242 and H.R. 5736 Smith Mundt Act Mod of 2012 used to attack Petitioner with Title 22 USC and Media dissemination. TEST THE RESOURCES FOR MOTIVES.

Title 50 USC § 3 - Duties of Council

"See Exhibit A; B"

(15) "It shall be the duty of the Council of National Defense to supervise and direct investigations and make representations to the President and the heads of executive departments as to location of railroads with reference to the frontier of the United States so as to render expedient concentrations of troops and supplies.

....." These Florida and New York plans enhance our Water/Defense protection. All New York is one concrete and designs, subject to failure; the aqueducts may have been attacked too in 9-11 attack (Bly 7?) and this system protects over 10,000,000 people and is hidden from the Public and Respondents by Media, Bureaucrats and have of New York City Council, New Democrats and more. Who would hide this from THE PEOPLE in an elected capacity more than 1-day? Mandamus is warranted immediately to validate resources. (6) No Real Plan or Leader in N.Y.s?"

(Earth Based Nuclear Fusion)

(26) Deuterium occurs naturally in water. Tritium is a radioactive isotope of hydrogen. Petitioner has Confidential packet Test readings for such. Would unique readings show Calcium .118 mg/L and Magnesium 78 mg/L with pH = 7.49 and Chlorides below 250 mg/L with a Negative Voltage.

No other Means to Attain Relief —

(27) Petitioner has no other means to enforce his rights. Mandamus jurisdiction of Federal District Courts extends on to officers, employees, or agencies of the United States, See 28 U.S.C. § 1361. There is method of enforcement by Petition to State Legislature; And as local leaders, claiming water supply woes, costs of migration, these project compromise extremely. The local corruption and apathy to help citizens is obviously growing for self serving leaders, executive positions within agencies. Suddenly Money and Votes are more important than endless tax without spring water supply and National Database?

Importance Beyond this Case

(28) Equal Rights challenges under a State's constitution to perform or not on a Professional Engineer's bond as Argument Plans to Taxpayers are rarely reviewed thereby potentially encouraging Audacious indifference by State Courts/agencies, or other Courts, to enforce their organic laws/codes. Writs of mandamus being supervisory in nature are appropriate to cure such issues. See United States v. Bertoli, 994 F.2d 1002, 1014 (3d Cir 1993). There is nothing that would render it inappropriate to issue the writ. See In re Volkswagen of America, Inc., 545 F.3d 304 (5th Cir 2008).

Conclusion

Petitioner has found two major National Defense Resources and produced Engineering Plans/Infrastructure Studies to require Respondents to react IMMEDIATELY; not play 12 yrs with Cops, FBI, Judges, Bankers to steal, take his rights, Lands to hide the Global Knowledge from the US, its Military, its Homes' Tape and from other Nations, to require Hunger, wars, migration.

Once a 2-Day test, pump report, DTH Video verifies both Florida and New Jersey resources; tilted Platform Low Motor Ingress and Bucked Volcanos; Hawaii can be (volcanoes) fixed in Days, Middle East, India desert areas have knowledge to bring Spring water up deep below without pump; to build Agriculture and Power Distribution, with cleaner water and Energy.

Wherefore, a Writ of Mandamus must issue compelling the Respondents to contact Petitioner for access and workshops to perform test and trade knowledge, to implement Plans.

Re: DeSoto County – Potable Water
Facility Name: Closer to the Heart
Facility ID: 6142734
DEP Application No.: 78714-026-DS

Dear Mr. Gilberti:

Thank you for your application for your concern about the processing of your application for the Closer to the Heart Project. We asked for signatures from the utility on the application form, a Public Service Commission Certification and authorization from the owners of the lands the water line will go through. You requested a dryline permit to allow for more time to secure the authorizations. All permits are issued with these authorizations. Dryline permits are issued when critical facilities (such as pump stations and treatment facilities) have not been built.

These are the reasons we need the authorizations:

Your project will provide water to the Peace River Manasota Regional Water Supply Authority. This utility must sign the application to bind itself to ensure proper operation.

We need approval from the owners of the properties where the pipeline will be installed. The Department may not convey any rights, privileges, title of other entities' properties. That permission must come from the property owner.

We need a copy of the Public Service Commission's (PSC) certificate authorizing you to provide the water service. This certificate is required for every public water system in DeSoto County. This certificate grants you the service territory for water. Without the certificate the Department may not issue a permit.

Without these approvals, any permit the Department issues will not meet the minimum requirements for water systems. Our intent is to permit projects that meet the basic requirements. When the project conforms to the rules, we can successfully defend challenges in court.

I also asked by email on June 24 about plans and construction through the wetlands as well as diameters for flushing stations. These questions are not as critical as securing the authorizations. I can authorize up to 90 more days for you to provide the authorizations. Please let me know if you need it.

I hope this letter clarifies the Department's needs for permitting.

Sincerely,

A handwritten signature in blue ink, appearing to read "Nolin Moon".

Petitioner has been attacked by Media, DOJ to stop the project and Americans/nations the ability to access ENDLESS DRINKING WATER WITHOUT RAIN. Affecting National Security. Members of DOJ and Florida Bar Association have put All "America at Risk" see Fla Supreme Ct case SC2024-0963 Gilbert v. Florida Bar, et al includes Sarasota County Commissioners, JAC Panel (Circuit 12:13)

Conclusion

Respondents can be heroes, to all Nations, help the Communities, Colleges, EPA, NASA and Citizens see a whole new Thermodynamic Model and Water Oasium Theory. Lower Health Costs/Risks, Create Hope, Housing Booms with Spring Water instead of Chemical Treated Surface/Ground water from the Low Cycle.

Respondents can revitalize CSX Railroads/Hwyways from access points, lower Migration, Wars, Taxes with Global new efficiency God provides deep in Mother Earth with 1-day verification at 9458 Daughtry Road, Sarasota FL, 34266. Endless Water means endless Food and less reasons for War, Conflicts, Hunger, oppression; via Water Wars.

Wherefore, a writ of Mandamus must issue compelling Respondents to verify resource, implement Relativistic Infrastructure Plans and protect the USA; and other Nations with 'Primary Water Access from Core,' to Taps, Military Bases, Nations, Allies.

hereby files a complaint for Organized Fraud, Conspiracy to Defraud
the United States, and Dissemination of Plaintiff's discovery and access
to 'Primary Water' from Earth's (1) Core, with no Rain Dependencies.

I. Introduction

(1) Plaintiff, Joseph D. Gilberti, P.E. (PE #56079) has statewide infrastructure civil engineering plans with access to a unique hidden U.S. Drinking Water Resource at 9438 Daughtrey Road, Sarasota, FL 34266 since 2012.

Defendants have purposely disseminated, called Resource 'Fictitious,' made false arrests, dated in trials, taken civil rights and worked to collectively suppress the Florida project, to hide the deep underground knowledge, that teaches all States and Nations how to 'Access and Locate' Antioxidant Spring Water Oceans (ENDLESS) to taps of major metropolitan cities, Middle East Nations to end Wars, and HELP Nations to minimize hunger, oppression and migration. See Gilberti v. United Nations, et al.

II. Jurisdictional Statement

(4) Defendants are doing business in the State of Florida and the United States and have 4-12 yrs of interest in Plaintiff's property work, land, project. (2)

IV. Take Judicial Notice

(5) Plaintiff request this court to take Judicial Notice of cases in State and Federal Courts where Defendants and others have disseminated and suppressed the Plaintiff's project, the secret underground Resource, its knowledge, calling Water Supply 'Fictitious' or 'Patently Insubstantial' or 'Baseless' in an 'Organized Fraud' attack with an "ongoing systematic scheme to disseminate and defraud the Public, Plaintiff, his clients, agencies, voters, Banks and Universities since 2012."

V. Complaint and Allegations

- (9) Plaintiff asserts the following Counts as related to ongoing/closed/cheated cases and ongoing State and National Organized Fraud and Dissemination/Conspiracy by Defendants, their constituents, staff and ongoing deceptive acts to suppress and attack Plaintiff's civil rights, clients, the United States and specifically Florida (Exhibit 4) and NJ/NY 'Piney Spring Water' access to 'Ocean Beneath the Earth'.
- (10) Defendants together with Media monopolies, online platforms, Internet, television networks, entertainment industries has hidden the unique underground 'medicinal spring water rivers' available to the tap with a massive coup within the Department of Justice, involving fake police reports, fabricated 4-15 cards, bond hikes whereby Propaganda/Smith Mundt acts through H.R. 5736. The following allegations are as follows:

Count 1 - Organized Fraud by Defendants

- (11) Since 2012, after Plaintiff, a civil engineer exposed a 'Piney Water' unique access point at Cecil Dougherty Road located at 9438 Dougherty Road, Sarasota, FL 34266, approximately 2000' below Well No. 2, with Sec 1 & 2, shown on Gilbert v. 72 Paduvas Sarasota Cir 12 case 2019 CA 04532 NC (DIN 197); A barrage of systematic attacks by Defendants, local and Federal officers/agents has transpired, thru 'Organized Fraud,' and 'Conspiracy' see Title 18 USC (§241-242) and §371 to stop ongoing Engineering Permits and Statewide exposure. See Gilbert v. Council of National Defense, ACOE, NEDC per Title 50 USC § 3; Statewide National Defense upgrade from CENTCOM to Southcom. (5)

Count 1 - Organized Fraud (Cont.)

(12) Organized Fraud is ongoing by Sarasota Judge Donna Marie Padua and Sarasota Commission caught in a 'Fraud Transfer.' see case 2011 CA 04207 NC, TZ Partners LLC vs Cecil Daughtry, fraud sale on October 5, 2020. See 'Request to Prosecute' (Dms 197) on case 2019 CA 04532 NC, for details of how and how Fraud tried to make FEM Fraud as shown in Gilbert v. FBI, et al., Tampa Middle Dist.

(13) "Organized Fraud includes elements (1) engaging in or furthering a systematic, ongoing course of conduct (2) with (a) intent to defraud, or (b) intent to obtain property by false and fraudulent pretenses, representations, or promises, or willful misrepresentations of a future act. (3) resulting in temporarily or permanently depriving any person of the right to property or a benefit therefrom, or appropriating the property to one's own use or to the use of another person not entitled thereto." Here Defendants have taken Plaintiffs rights, lands with timed attacks to dissiminate the project, steal the proprietary information and sell it to the county to hide lower water bills and much healthier water to a 4-6 county 'Peace River Minnesota Water Supply Region.' And to suppress and dissiminate value and Global Knowledge with Federal Judges calling everything 'Fraudulent' or 'Potentially Insubstantial' since Kotany, Brown Jackson's similar order on Gilbert v. Federal Reserve, et al. Defendants with Judge Padua made Jury leave room during entire trial, see Cir 12 Case 2021 CF 07559 NC, mistrial transcripts, with Jury manipulation / Fraud in Count. To attack Plaintiff with Sheriffs / Corps / FBI doing complex title litigation. (6) See Gilbert v. Fla BIA, et al - SC 2024-963 A+ Fla Supreme Ct.

Count 2 - Conspiracy to Defraud the People
of the United States - Raw Water Resources - Title 22 USC (1461-1464b)

(14) Defendants collectively have, with media, entertainment industries, TV, programming with video games, movies, and lies, have used Title 22 USC Propaganda and Dissemination, to hide a very simple issue. Its

Amazing its still working? ENDLESS ALKALINE SPRING WATER
to Taps vs. Limited MORE EXPENSIVE TREATED CHEMICAL
RIVERS/GRAWDWATER. EPA Health advisories set TREATED

Water goals 4 (1 in 10,000) get Cancer, LEVEL OF SERVICE at Tap.

(15) Since Plaintiff found access to deep underground OCEANS,
A Conspiracy by Defendants to attack his project, called Water 'Fictions'
and Defraud the United States began in 2012. Starting with Obama
and his Oil/Water friends George Bush (Blue Gold Bush Family).

(16) Defendant (the Judges, State Attorneys in West Florida and DC)
with Department of Justice, Trump, Harris, Broadcasting Board of
Governors, and Defendants have forced Crocky attacks on USA and
Plaintiff retraction with 'Purity Water', Douglas Ranch exposure
ad FDEP Permitting, permits, eat, Boston Marathon and Portland Shooting (Broward).

(17) Defendants are still attacking after funding Title 22 USC §1461a
into America via Smith Mundt Act of 1948 through Congress Rex Thorneberg
on May 10, 2012 with H.R. 5736. Must be Repealed entirely!

(18) The Department of Commerce and Defendants are purposely
hiding this Global Deep underground endless drinking Water knowledge to
increase living cost, food, fuel, construction cost and increasing causing
more debts thru Dissemination. While trying to steal Plaintiff's land
with Sarasota County Commission. See State cases in this complaint

2019 CA 04532 NC. (7) Gilbreth vs 72 Partners LLC (open).

Count 3 - Title 15 USC (§§1151-1157) Discrimination
of Technical, Scientific and Engineering Information

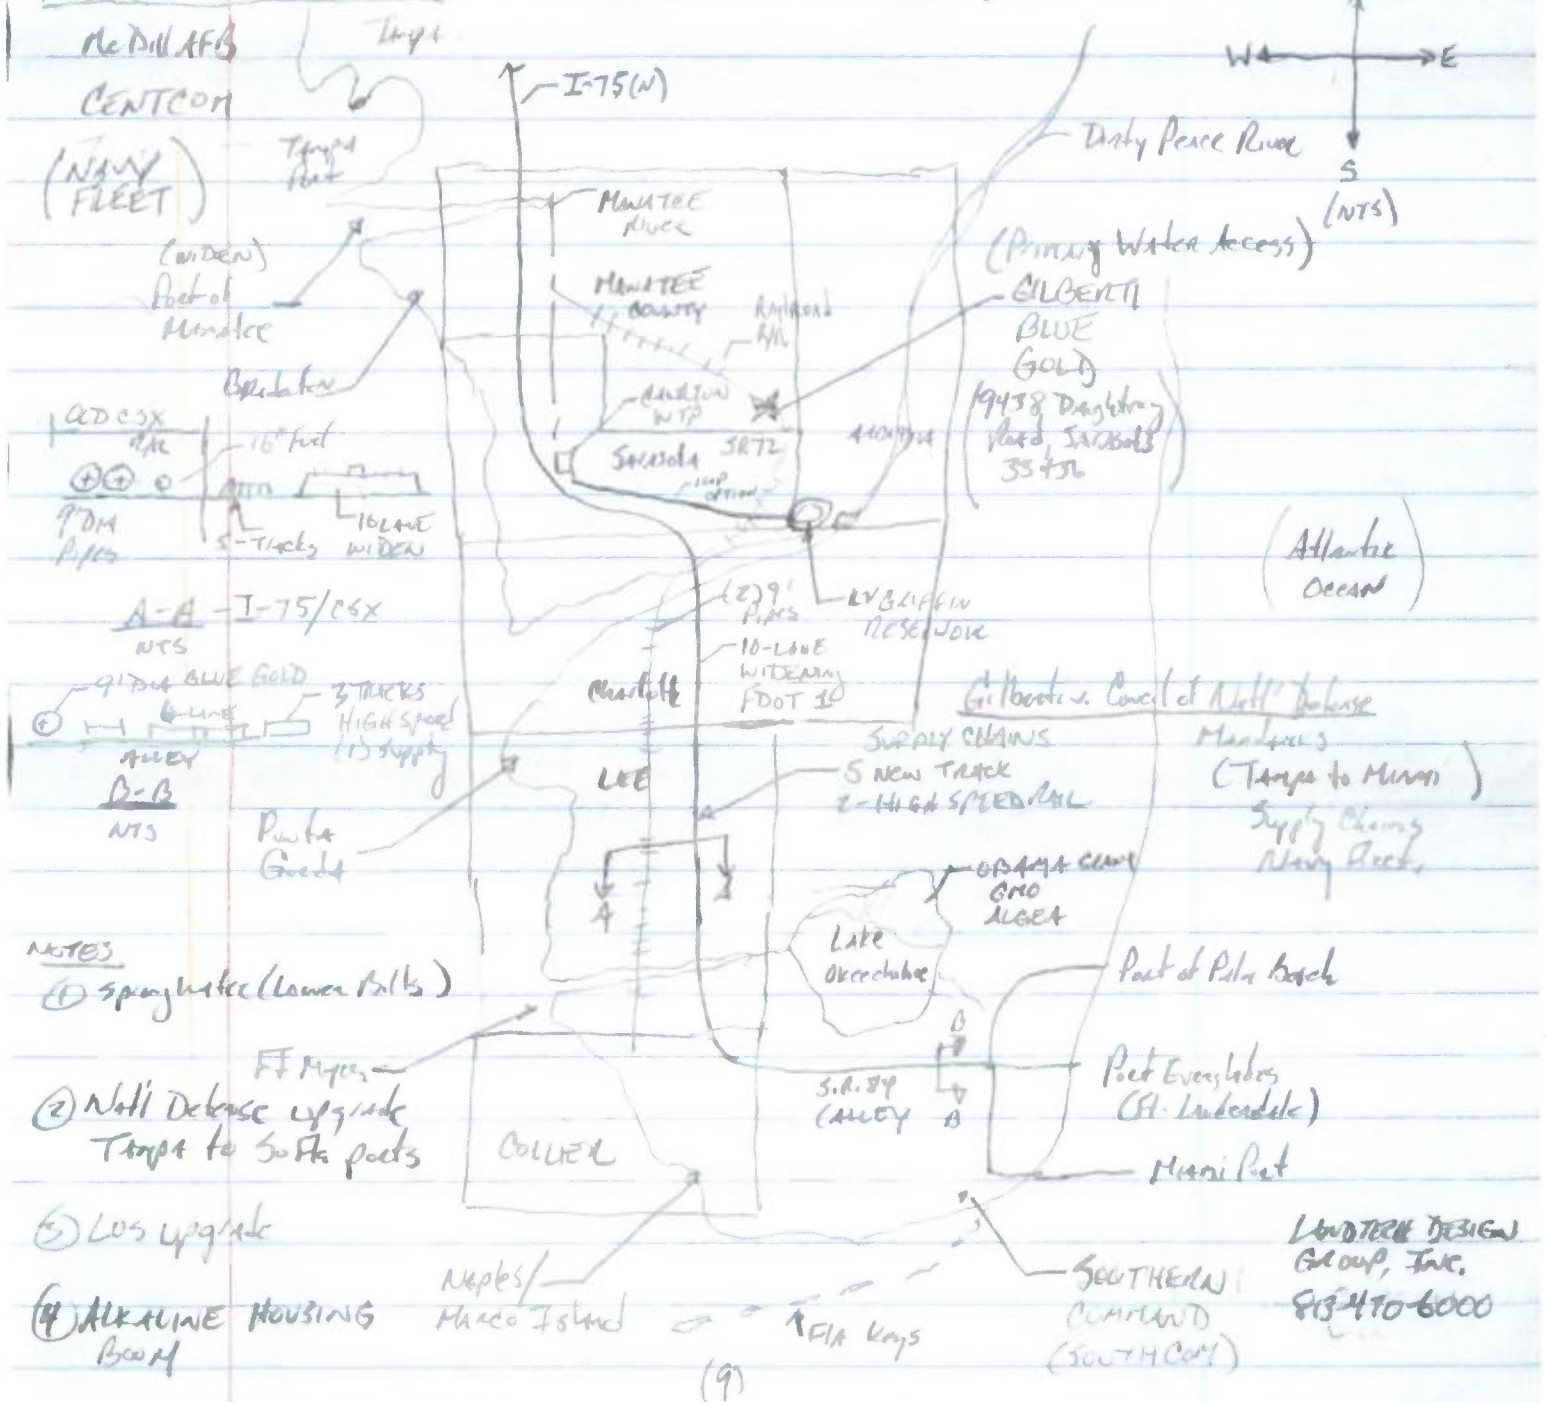

(19) Title 15 USC §1152(a) search and collect information - Here Defendants with Presidents, Department of Commerce have SPECIFICALLY did the opposite and hid the project from the media with control of Board of Broadcasting Governors, from USA and all Nations. Using TV, Internet to create Waker Wars, Middle East Wars, violent TV, Violent news, violent video games, to dissiminate the Plaintiffs GLOBAL ANSWERS to END WARS, HUNGER, MASS MIGRATION, all tied to selfish Presidential Elections, and Media ratings thru Discrimination of Plaintiff's Professional Engineering facts, Permits for "Revitalization of National Defense for the Florida Peninsula" - See Gilbreth vs United Nations, et. al and Gilbreth v. Council of National Defense and Gilbreth v. Karala Harass, et. al.

(20) Title 15 USC §1152(b) - Defendants 'Failed' to make Plaintiff's Technical, Scientific and Engineering Information (Plans and Agencies) available to industry and business, to state and local governments, to other agencies of Federal Government (HIDE IT FROM TV, MEDIA, JOURNALISTS, and attack anyone who tries to help!) and the General Public through preparation of abstracts, digests, translations, bibliographies, indexes and microfilm and other reproductions, for distribution directly or by utilization of business, trade, technical, and scientific publications and services. SEE EXHIBIT A'

(21) Defendants attacked, hid and suppressed Plaintiff's Global Health/Economic Impacts to destroy American kids with higher crimes, oppressions, LIES, Cancers, viruses; this Global Worker Knowledge reduces significantly! Thru Dissimulation/TV, (8) and Courts, DOJ, Dept of Commerce, Apathy.

This video zoom hearing is public record at Hillsborough County Clerk of Court to the public if link is not available for case 16-CF-10976-A, where Judge Mark Wolfe, Public Defender Chris Shaw, and State Attorneys April Johnson, Andrew Warrens office and more fabricated emails with Pam Bondi and Mark Ober to subdue Defendant illegally timed with lien cases, record terrorism acts based on emails or engineering submittals to FDEP, as shown in Gilberti vs Desantis, et. al, docketing at the US Supreme Court with Sarasota county commissioners, just like this many Sarasota related RICO cases have shown.

This was the only online sale for Sarasota that day with the Sheriff and County comptroller and online auction system.

This sale was from a Sarasota foreclosure in dispute, that involves a unique hidden US Resource for Water Supply, a gang of FDEP and EPA agencies and local developers have been hiding, giving him a Motive to do so,

What is your desired outcome for the case? To have suspects arrested for crimes and land returned to the proper owners and to move all their cows off the property immediately that could be damaging a critical US Water Supply resource with their actions and crimes against Humanity documented as related to hiding and doing this Land Grab with Sheriff Hoffman and Det Wyche of Sarasota County.

I swear and affirm the information on this form is true and correct.

Re: CLOSER TO THE HEART

Over the past 13 years I have supervised & used downhole video units and water quality logging trucks in a variety of areas including Closer to the Heart. Based on the results obtained during our pull back zone testing, water quality is extremely good for both the area and depth, the pH values during zone testing ranged from 7.8 to 11.

Re: DeSoto County -- Potable Water
Facility Name: Closer to the Heart
Facility ID: 6142734
DEP Application No. 78714-026-DS

Dear Mr. Gilberti:

Thank you for your application for your concern about the processing of your application for the Closer to the Heart Project. We asked for signatures from the utility on the application form, a Public Service Commission Certification and authorization from the owners of the lands the water line will go through. You requested a dryline permit to allow for more time to secure the authorizations. All permits are issued with these authorizations. Dryline permits are issued when critical facilities (such as pump stations and treatment facilities) have not been built.

These are the reasons we need the authorizations:

Your project will provide water to the Peace River Manasota Regional Water Supply Authority. This utility must sign the application to bind itself to ensure proper operation.

We need approval from the owners of the properties where the pipeline will be installed. The Department may not convey any rights, privileges, title of other entities' properties. That permission must come from the property owner.

We need a copy of the Public Service Commission's (PSC) certificate authorizing you to provide the water service. This certificate is required for every public water system in DeSoto County. This certificate grants you the service territory for water. Without the certificate the Department may not issue a permit.

Without these approvals, any permit the Department issues will not meet the minimum requirements for water systems. Our intent is to permit projects that meet the basic requirements. When the project conforms to the rules, we can successfully defend challenges in court.

I also asked by email on June 24 about plans and construction through the wetlands as well as diameters for flushing stations. These questions are not as critical as securing the authorizations. I can authorize up to 90 more days for you to provide the authorizations. Please let me know if you need it.

I hope this letter clarifies the Department's needs for permitting.

Sincerely,

A handwritten signature in blue ink, appearing to read "Nolin Moon".

V.

JOSEPH D GILBERTI JR,
Defendant.

_____/

MEMORANDUM IN SUPPORT OF DEFENDANT'S MOTION FOR NEW TRIAL

COMES NOW, the Defendant, JOSEPH GILBERTI, by and through his undersigned attorney, DANIEL M. HERNANDEZ, and files this Memorandum in Support of Defendant's Motion for New Trial, and alleges as follows:

1. The Court should have granted the Defendant's request for a continuance on the morning of trial. The Defendant wanted to retain a lawyer for trial but needed additional time. The Defendant is intelligent and extremely knowledgeable of the facts of the case but is not trained on how to efficiently present it to a jury abiding by the rules of evidence and procedure. Standby counsel was not the Defendant's choice and was not ready for trial regardless because the Defendant had not prepared with her. Moreover, the Defendant was not given a choice of a continuance with his standby counsel. It was an abuse of discretion for this Honorable Court to force the Defendant to trial. He needed more time to either retain counsel or, at the very least, to more effectively present his own defense. Please see page 148 of the trial Transcript.
2. The Court committed error by not allowing the Defendant to give an Opening Statement before any evidence was presented because he told the Court he was reserving it.

The Opening Statement is an extremely important part of a case. This is the

first opportunity for a litigant to present their case as a cohesive whole. It is a golden chance to present the theory of the case, build rapport with the jurors and alert jurors there are two sides to the case. *Brooks v. State*, 175 So 3d 204 (Fla. 2015); *Occhicone v. State*, 570 So 2d 902 (Fla. 1990).

The Defendant, proceeding pro se, was thinking he could make his Opening Statement immediately after the State finished their Opening Statement. Despite not understanding what “reserving” meant, he asserted his intention before the State called any witness to testify. Clearly, there was no prejudice to the State in permitting the Defendant proceed with his Opening Statement.

It was an abuse of discretion for the Court to deny the defendant giving an Opening Statement. He was prohibited from telling the jury what his defense was. The error was not cured by the Defendant’s Closing Argument because by that time the jury had been exposed to only one overriding explanation. He never was able to set the groundwork for his defense. Please see pages 183 and 187 of the Trial Transcript.

3. The Court committed error by ruling Defendant exhibits were inadmissible.

The Defendant attempted to introduce exhibits (documents) related to his pending civil lawsuits. Criminal intent was the ultimate issue not whether the Defendant has valid civil claims. However, the exhibit related to the Defendants civil claims were part of his explanation why he was operating in good faith, and therefore, had no criminal intent. Consequently, the exhibits were relevant and should have been admitted as evidence. Please see pages 133 and 227 of the Trial Transcript.

4. The Court should have granted the Defendant’s Motion to Recuse.

The Defendant filed a lawsuit against the Court in federal Court well before the trial date. A Petition for Writ of Prohibition regarding the Defendant’s Motion to Disqualify the Court (because the Court is a witness) was pending. Even if the

Defendant missed a procedural step in processing his motion, the Court had an identifiable conflict of interest warranting recusal. Please see page 128 of the Trial transcript.

5. The Court should have granted the Defendant's Motion for Change of Venue.

The Defendant argued a variety of reasons why a change of venue was crucial for him to receive a fair trial. He submitted there was too much organized fraud in the Sarasota area, the Court was part of the fraud transfer and biased toward the State and allegations had been made against county commissioners, judges and other officials in the area. With all these factors (including publicity and litigation in the area), a change of venue was necessary. Please see pg. 136 of the trial transcript.

6. The Defendant alleges each ground presented merits a new trial. However, the cumulative effect of the Court's adverse rulings against the Defendant in the above plainly shows the Defendant was denied a fair trial and requests a new trial.

**ADDENDUM TO DEFENDANT'S MEMORANDUM IN SUPPORT OF HIS MOTION
FOR NEW TRIAL**

COMES NOW, the Defendant, JOSEPH GILBERTI, and files this his Addendum to his
Memorandum in Support of his Motion for New Trial and alleges:

1. It should be noted that the State filed an Amended Information the morning of
Trial on March 5, 2024, further confusing the Defendant who was proceeding pro
se. Although pro se litigants are not immune from rules of court or rules of
procedure, they should be granted leniency and substantial leeway in litigation.
Fernandez v. Barry University, Inc., 973 So. 2d 1240 (Fla. 3rd DCA 2008; Stokes
v. Fla. Dept. of Corr., 948 So.2d 75 (Fla. 1st DCA 2007); Mankowski v. Dept. of
Revenue ex rel. Evans, 24 So.3d 714 (Fla. 4th DCA 2009).
2. Applying the reasonableness test as defined in Canakaris v. Canakaris, 382 So2d
1197 (Fla. 1980), there was clear abuse of discretion by this Honorable Court. It is
sometimes frustrating to a Court when a Defendant, with no legal training,
exercise his or her right of self-representation. In this case, the Defendant did his
best despite making some mistakes, all of which were understandable under the
circumstances he faced. It is respectfully suggested that the grounds stated in the
Memorandum and this Addendum, especially their cumulative effect, warrant a
new trial.

1. The Defendant incorporates by reference all allegations and arguments submitted in his Memorandum in Support of his Motion for new trial.
2. An additional reason for the Defendant requesting a continuance of the trial has that on the morning of the trial, he was provided new discovery regarding Det. Wyche, Thomas Howze and Ed Morrell.
3. This new discovery rendered the Defendant unprepared to proceed.
